Your Global Freight Connection

Our History

L.I.N.K. Global is an international network of independent forwarders, handling millions of pounds of cargo transported by sea, in the air and on the road. The network was officially founded in 1994 in Kinderdijk - Holland by several members (some are still members today) and now L.I.N.K. has become a globally recognized organization over the years.

L.I.N.K. partners currently work in some 240 offices located in just over 63 countries around the world, giving customers global advantages and at the same time a local and personal touch. All L.I.N.K. Global partners and their employees share a passion for transportation, know-how about their industry and in-depth knowledge of customs, legislation and global transport developments.

As our worldwide top managers meet once in a year, those yearly workshops enable each of them to be aware of the change in trade regulations in each country for a continuous smooth operation, for the clients.
